

Working Together

Comtronic

Leader in Aerospace & Defense
Illuminated Display & Control Systems

- Human Machine Interfaces
- Control Panels
- LED-Displays
- Control Warning Systems
- Lighting Components

- Serving and delivering all over the world
- Dedicated custom made equipments

Comtronic

Leader in Aerospace & Defense
Illuminated Display & Control Systems

- 50 years supporting world leading OEMs since 1968
- Headquartered in Germany, Schönau / Heidelberg
- Growing workforce of more than 60 employees
- Turnover 2016 of over € 7 Mio
- Part of the strong MAFELEC Group with beyond 60 M€ in sales

Comtronic

Leader in Aerospace & Defense
Illuminated Display & Control Systems

- Worldwide trusted customers, civil & military
- Servicing airplanes, helicopters, submarines, defense vehicles

Leader in Aerospace & Defense
Illuminated Display & Control Systems

Comtronic

Leader in Aerospace & Defense
Illuminated Display & Control Systems

- Full range of services for R&D, qualification, production and after sales
- Qualified EN9100:2009 organization
- EASA authorized Part 21G and Part 145

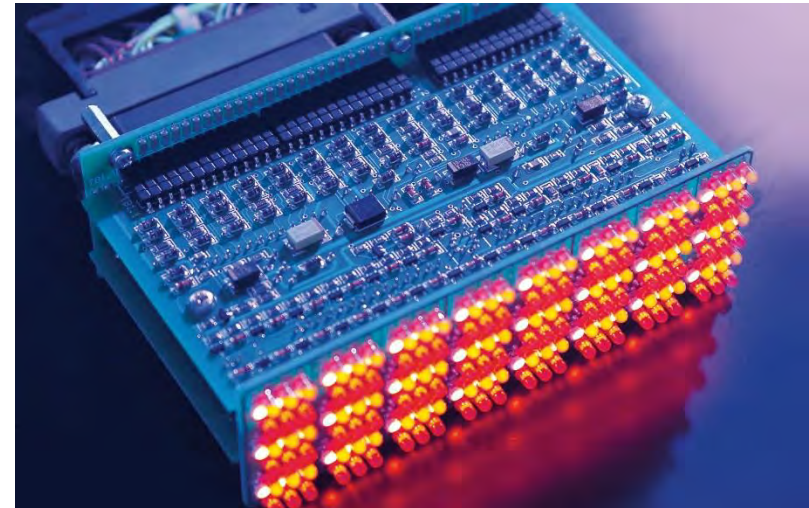

Comtronic

Leader in Aerospace & Defense
Illuminated Display & Control Systems

Design, Research & Development

- Electronic & PCB design
- Electronic laboratory
- Mechanical design
- Optical & Illumination design
- 3D CAD drawings & modelizations

Comtronic

Leader in Aerospace & Defense
Illuminated Display & Control Systems

Production

- Machining of metal & plastic
- Laser cutting
- Laser engraving
- Surface treatment
- Photo Etching
- Painting (Hand & Automatic)
- Assembly

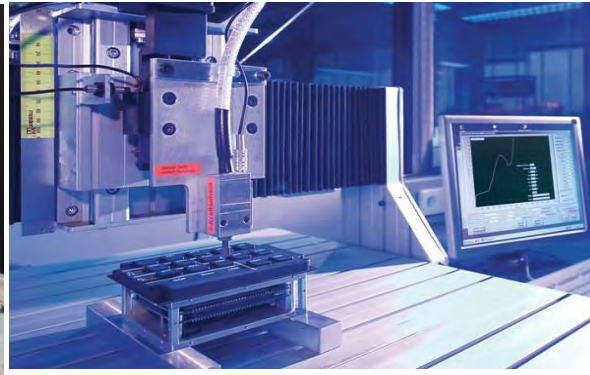

Comtronic

Leader in Aerospace & Defense
Illuminated Display & Control Systems

Qualification and Testing

- In-House Testing
- Dimensional Measurement
- Electrical measurement
- Optical measurement
- Shoc/Vibration
- Altitude testing
- Temperature Chamber
- Humidity Chamber
- Travel & Force Measurement
- EMI/EMC Labor
- Stroke testing
- Salt/Fog
